

Godrej

POWERFUL COOLING. ADVANCED TECHNOLOGY.

2024 RANGE

BEST IN CLASS SERVICE

Cooling experts since 1958

The deep freezers we manufacture in our Green Co Certified factories undergo rigorous testing to ensure they live up to the high quality and durability standards that our consumers have come to expect from us.

Performance testing:

Every Deep Freezer is tested against harsh environmental conditions, like extreme temperatures and humidity levels to provide guaranteed performance anywhere in the world. The performance of the product under higher fluctuating voltage and power surges is also checked.

Reliability testing:

A tropical country, like India, has varying temperatures across its regions. Deep Freezers are tested considering these variations, specifically targeting **maximum temperature and humidity** conditions recorded in various regions. Even the packaging of all the models are tested to withstand the transport conditions in our country, so that customers receive the product in the best condition.

EMC testing:

Testing is done under severe conditions according to the international standards laid down by IEC (International Electrotechnical Commission), taking into consideration the nature of electric supply in our country.

Service Advantage

Extended product life with genuine spare parts.

24x7 connect centre in 14 regional languages.

4500+ app-enabled Godrej Smart Buddy technicians.

Over 660 service centres.

Service available up to 9 pm, even on weekends.

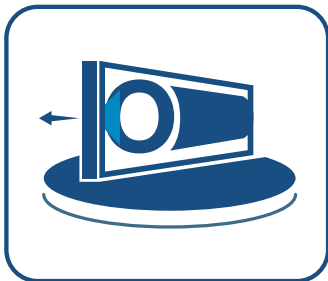

TECHNOLOGY THAT STANDS OUT

PENTACOOOL TECHNOLOGY

Godrej Deep Freezers come with 5-side cooling technology that allows uniform and faster cooling.

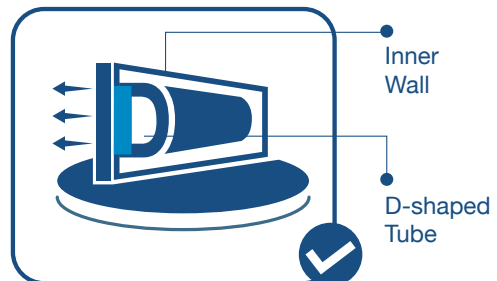

D-COOOL TECHNOLOGY

REGULAR FREEZERS use O-type Refrigerating Tube

- Minimal Contact
- Small Heat Exchange Area
- Low Refrigeration Efficiency

VS

GODREJ FREEZERS use D-type Refrigerating Tube

- More Surface Contact
- Large Heat Exchange Area
- High Refrigeration Efficiency

CONVERTIBLE TECHNOLOGY

FREEZER

COOLER

While most deep freezers in the market provide only a freezer (0°C) option in their deep freezers, the entire range of Godrej Deep Freezers is convertible and offers a temperature range of -26°C to 8°C. This allows storage of a variety of items such as frozen foods, ice creams, beverages and more.
